EVALUATION

Looking back on your Pre-Internship Goals, did your internship meet your goals? Did you acquire the skills and techniques, and experiences that you hoped to during your tenure at ESYNOLA? Why or why not?

What did you do well during your internship, and where do you have room to grow?

What did you learn that you hadn't anticipated?

How could we improve upon your experience as an intern?

Please provide some feedback on your direct supervisor: list the top three things you appreciated about him/her, and one region of growth.

Any other thoughts or suggestions for ESYNOLA?
